Riobel

A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL

BRILLIANTLY MODERN

Based in Montreal, Canada Riobel was born out of a vision of innovation and contemporary style. Riobel takes an industry-leading and progressive approach to design, marrying brilliant function with modern simplicity and elegance.

Driven by a deep understanding of consumer needs, Riobel continually seeks to hone its solutions through a combination of modeling and state-of-the-art testing. This quest is fueled by a passion to honor the principles of distinctive design. The result is a superior experience, where refined esthetics serves a purpose and makes a distinctive, modern statement.

ECOLOGICAL PRODUCTS

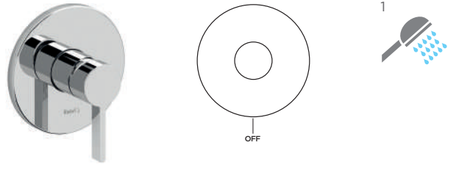
Riobel offers ecological products that contribute to a reduction in water consumption without compromising their efficiency. They are even more eco-friendly than some certified products. Theses Riobel products save water and are therefore ideal for projects that are more mindful of the environment.

RIOWISE SHOWER VALVES SYSTEM

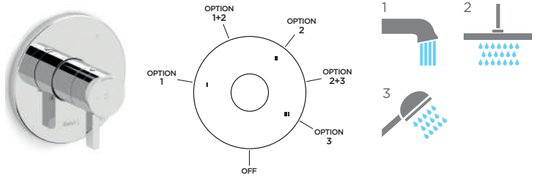
Riobel's coaxial valves control both volume and temperature so you don't have to plumb in a separate shut-off or diverter valve, allowing for more streamlined faucet design that takes up less space on the wall. Furthermore, our thermostatic/pressure balance valves offer the best of both worlds: they stabilize water pressure for steady temperature performance even in the event of a 50% drop in pressure. No wonder why this shower system is known as the **RIOWISE Valves System**. Riobel owns the patent for this revolutionary invention in the world of plumbing!

SHOWER SYSTEMS

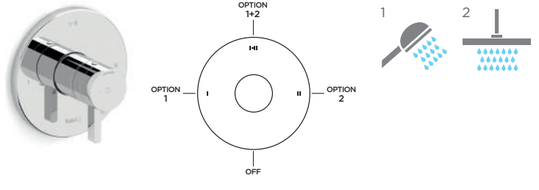
1-WAY (+1) PRESSURE BALANCE



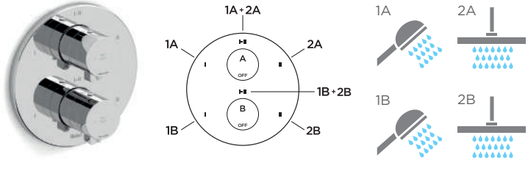
3-WAY COAXIAL **RIOWISE**



2-WAY COAXIAL **RIOWISE**



4-WAY COAXIAL **RIOWISE**



As requirements vary according to state and municipality, Riobel recommends that all our clients ensure that the selected products meet local building codes prior to purchasing.

Please take note that for high efficiency shower systems, all the shower valves don't have a share option.

NEW TECHNOLOGY

NOUVELLE TECHNOLOGIE

RETRACTABLE HAND SPRAY

BOOMERANG

DOUCHETTE RÉTRACTABLE

Returns to its original position quickly and easily
Revient à sa position initiale facilement et rapidement

Riobel's new collection of modern kitchen faucets come with an ingenious Boomerang pull-down spray system, which allows the sprayer to return to its original position quickly and easily. The hose is made of braided nylon, which is a silent and durable material, and the sprayer has an integrated swivel joint for easy handling to rinse vegetables, wash the sink and even fill a pan or pot with water.

La nouvelle collection de robinets de cuisine modernes de Riobel est dotée de l'ingénieux système de douchette rétractable Boomerang, qui permet à la douchette de revenir à sa position initiale facilement et rapidement. Le boyau de la douchette est fait de nylon tressé, un matériau silencieux et durable. De plus, un joint rotatif permet de manier la douchette facilement pour rincer des légumes, laver l'évier, ou encore, remplir un plat ou une casserole.

DISTINCTIVE FEATURES

QUALITY AND DURABILITY
Riobel provides products of superior quality, backed by a limited lifetime warranty.

EASE OF INSTALLATION
Riobel faucets are designed for easy installation, access and maintenance.

TIME-TESTED FINISHES
All Riobel products in brushed nickel, polished nickel and stainless steel are treated with a high-tech coating (PVD) to protect them from tarnishing, discolouration, scratching and corrosion.

WARRANTY
We offer a limited lifetime warranty on our chrome, brushed nickel (PVD), polished nickel (PVD), black and stainless steel (PVD) finishes and parts, starting from the date of purchase and against any manufacturing defects. Other finishes are protected by a one-year limited warranty.

CERTIFICATIONS
Riobel products are certified by, and are in compliance with, the following standards: ASME A112.18.1, CSA B125.1, CMR 248, CEC, ASSE 1016, NFS 61 and NFS 372. These standards are listed with IAPMO.

ECOLOGICAL PRODUCTS
At Riobel, the environment is very important. That's why we have equipped the bulk of our lavatory faucets with efficient aerators to reduce their flow to 5.7 litres per minute, 1.5 gallon per minute (US).

*Sizes, models and finishes may differ from those presented.

OUR **RIOBELMODERN.COM** SITE HAS MANY INTERESTING FEATURES FOR YOU!

We offer a 3D virtual model option on our website, riobelmodern.com. You can now use 360-degree, 3D modeling technology to view all single hole lavatory faucets, widespread faucets, freestanding bath faucets and kitchen faucets on the site. You can also superimpose the Riobel faucet on an uploaded photo of either your own kitchen or bathroom, or a vanity or kitchen sink you're interested in, and see the final result in 3D. The option to superimpose faucets on background photos is also available on the mobile site.

For single-hole and kitchen faucets, you can also see videos presenting their water flow.

You would like to see your faucet in another finish? You only have to click on the finish swatch below the product image!

Furthermore: do not forget to subscribe to our newsletter; you only have to enter your email address.

HOUSE OF ROHL

THE STORY CRAFT TELLS

We believe distinctive stories are what make life exceptional.
At the House of Rohl, we pursue the discovery of time-honored craft
that opens the door to stories unlike any other. Stories of place and provenance.
Stories of dedication and passion. Stories of artistry and heritage.

Through our collection of authentically crafted faucets, fixtures,
fittings and accessories for the kitchen and bath, you will find countless
stories in every detail. And the closer you look, the more you will see
the details of your own story, of a life well crafted.
