## Pattern Notes and Helpful Tips:

Here are some notes and tips to help along the way as you create your amigurumi!

### Invisible Decrease:

- 1 Insert the hook into the FRONT loops only of the next 2 stitches. There will be 3 loops on your hook.
- 2 Yarn over and pull through 2 loops (the front 2 loops). 2 loops will remain on hook.
- 3 Yarn over again and pull through the 2 remaining loops. 1 loop will remain on hook.

**Regular Decrease:** A couple patterns use this technique for decreasing. Mainly when working flat pieces and not in the round.

- 1 Insert the hook into the next stitch and yarn over. There will be 2 loops on your hook.
- 2 Inset the hook into the next stitch and yarn over again. This time there will be 3 loops on your hook.
- 3 Yarn over for the last time and pull through all 3 loops. 1 loop will remain on your hook.

### Cleaner Color Changing Technique:

- 1 When working the last stitch of the old color, do the last single crochet, stopping when you have 2 loops left on the hook.
- 2 Use the new color to yarn over and pull through the 2 loops to complete the stitch.
- 3 Slip stitch into the next stitch with the new color. The slip stitch counts as a stitch!
- 4 Continue to crochet with the new color. Make sure to secure the ends.

### Adding a mouth:

Thread your embroidery needle with a medium length of embroidery floss, tie a knot on one end.

- 1 Bring the needle from the inside of the piece to the outside, near the safety eye on your left.
- 2 Go across to the right side and insert the needle into the piece. Be sure to not pull the thread all the way through.
- 3 Hold the thread in a smile shape. Bring the needle up into the center of the mouth, making sure to go one row down.
- 4 Pull thread down to create a "V" shape.
- 5 Insert the needle back into the piece, close to where it came out in Step 3.
- 6 Pull thread through to the inside of the piece and tie a knot to secure floss.

### Adding eyelashes:

- 1 Thread your embroidery needle with a medium length of embroidery floss, tie a knot on one end.
- 2 Bring the needle from the inside of the piece to the outside, making sure your needle is as close to the safety eye as possible.
- 3 Insert the needle back into the piece, making the lash as long as you'd like.
- 4 Bring the needle to the outside again and repeat Step 2 until you have made all the lashes you want.
- 5 To finish, bring the needle to the inside of the piece and make a knot to secure floss.

### Closing pieces:

With a yarn needle, weave needle through the front loops only of the remaining stitches, working from the center to the outside. Once you have reached the end, pull the tail and the hole will close up. Insert the needle into the center of hole, pull through and tie off.
