You will have to sew the space between the legs to close using the starting tail.

Braids:

Cut some 35 cm long of black yarn for the hair. Fold each one of them in halves.

Insert your hook into a stitch in one side at the back of the hair.

Grab three yarns (or depending on how thick you want the braid of your doll) and place the folded part of black yarns on hook, and pull it through the stitch just enough to form a loop. Grab the remaining tail of the black yarns and pull it all through the loop. Repeat the process until you're happy with the thickness of the braid.

Braid the hair and secure the bottom by making a knot using another piece of black yarn. Do the same thing for the other side.

← Pull the strands here on the back of the hair.

Shoelaces:

(follow the steps showed on the pictures below)

EXTRA NOTES:

For nice cheeks use a brush and put some blush on, or embroider some cheeks with a pink yarn.

You can also embroider a nose with crème colored yarn if you want to.

Now you finally made it! Time to build a igloo!
