a s s e m b l i n g :

Sew the gills to the head. They are placed in one line and space between them are 3 rows.

Sew the head to the body. Stuff the space between body and head a little.

Sew the tail parts on. Big one at first, then middle ones, then small ones. Two nearest parts have one common sewing point. That's mean no space between tail parts.

Sew the arms on. I placed them 4 rows lower than head. Space between arms - 12sc.

(Optional) Embroider the mouth and sew the spots on the head and body. You can also embroider the blush under the eyes.

D one!

Experiment with colors, spots, mouth and make your unique Axolotl.
