Note: Here is where we will add the facial features before we start closing the head. Insert the eyes between rows 16 and 17, 8 stitches apart.

Nose and mouth- Using pink embroidery thread place the nose two rows beneath your eyes and two stitches in on each side (this will leave 4 stitches in the middle and this is what you will pass your thread through to create the nose). Pass your thread through 13 times (or as many as you would like for a thinner or wider nose). Use your thread to make a straight line down 3 rows and then a 'V' for the smile, please see picture for reference.

*Stuff your head firmly as you go.

Ears- Make 2

With beige

Round 1: Create a magic circle with 8 SC

Rounds 2-3: SC around (8 SC)

Round 4: SC in the first stitch, SC INC in the next, repeat around (12 SC)

Round 5: SC around (12 SC)

Round 6: SC in the first 2 stitch, SC INC in the next, repeat around (16 SC)

Round 7-15: SC around (16 SC)

Round 16: SC in the first 2 stitches, INV DEC in the next, repeat around (12 SC)

Fold the ears in half as pictured below and SC across the top to close, fasten off and leave a long tail for sewing (this creates a curved ear and will help the ear to be sturdy)

Sew the ears onto the head, place them evenly apart in line with the eyes. I started at the 3rd row and finished at the 6th row.

Arms- Make 2

Lightly stuff the bottom of the arms only

With beige

Round 1: Create a magic circle with 6 SC

Round 2: SC INC in each stitch around (12 SC)

Round 3: SC in the first 3 stitches, SC INC, repeat around (15 SC)

Rounds 4-5: SC around (15 SC)

Round 6: SC in the first stitch, INV DEC, repeat around (10 SC)

Rounds 7-14: SC around (10 SC) Change to shirt color

Rounds 15-20: SC around (10 SC)

At the end of round 20 pinch the arm flat and make 5 SC across the top to close, fasten off and leave a long tail to sew onto the body. (Pictures above)

Assembling the body-

Sew the head onto the body, making sure to have the facial features centered. Add more stuffing as you go to make it firm and less wobbly. Next sew the arms onto the body centered with the head at row 44.

Suspenders- Make 2

Chain 30, HDC in the 2nd chain from hook and in each chain across

Fasten off with a long tail for sewing

Sew each suspender onto row 31, front and back over the arms.

Two options can be done with the suspenders, they can be only sewn onto front and back of row 31 (meaning they can hang down if wanted) or they can be sewn along the body so they will stay in place.

Bow- With color of choice chain 20

Row 1: HDC in the 2nd chain from hook and in each chain across (19 HDC)

Rows 2-3: Chain 1 and turn, HDC in each chain across (19 HDC)

Fasten off leaving a long tail

Using your tail whip stitch the two ends together to make a tube (pictures below), placing your sewn side in the middle wrap your yarn tightly around the middle 7 times to form your bow. Secure it in the back and use the remaining tail to sew onto the body. (Pictures to the side). Your bunny is complete!
