Special Stitches

4-dc Cluster Stitch

1. Yarn over, insert hook in next stitch, yarn over, draw yarn through the stitch, yarn over, draw through 2 loops on hook, leaving last 2 loops of this dc on the hook.
2. Yarn over, insert hook in the same stitch, yarn over, draw yarn through the stitch, yarn over, draw through 2 loops on hook, leaving last loop of this dc on the hook (there are now 3 loops on the hook).
3. Yarn over, insert hook in same stitch, yarn over, draw yarn through the stitch, yarn over, draw through 2 loops on hook, leaving last loop of this dc on the hook (there are now 4 loops on the hook).
4. Yarn over, insert hook in the same stitch, yarn over, draw yarn through the stitch, yarn over, draw through 2 loops on hook, leaving last loop of this dc on the hook (there are now 5 loops on the hook).
5. Yarn over, pull loop through all loops on hook (this completes the cluster).

French Knot

- To make a French Knot, bring your needle up through the piece where you want to place the knot. Wrap the yarn around the needle twice.
- To finish the knot, insert the needle back into the piece close to the hole you came out of (*almost in the same hole*). Slowly pull the needle and working yarn through the wrapped loops to complete a French knot.

Generic Processes

Sew Edges

It's an easy process. Just take your piece, flatten it, and sew the open edges closed. Depending on the pattern, you should fasten off or leave a long tail to sew it later.

Hair Strand by Strand:

- With this process you will learn to make hairs strand by strand. Sometimes this process will be used to make other elements, such as a skirt, etc.
- To make one hair, cut a piece of yarn, 3 inches (7.5 cm) in length. Insert the hook through one stitch (*figure 1*), yarn over, draw yarn through the stitch (*you've done a loop*) (*figure 2*), yarn over again (*with both strands*) and pull through the loop (*figure 3 & 4*). Repeat this process to make more hairs.
- Finally, cut these hairs to the desired length.

· When you place the parts of the head, remember that you should place the cluster stitch forward. This is the nose.

· I used amigurumi safety eyes for this pattern. Place them centered, between rounds 17 and 18. For your reference the eyes have a distance of 3 sts between them.

Note: If you don't want to use amigurumi safety eyes, you can do the eyes with stitches. With black yarn make several stitches for each eye. Place them in round 18. For your reference the eyes have a distance of 3 sts between them.

· With hair color thread you can make two diagonal stitches above each eye, on round 14, to give it a more fun expression. The length of each stitch is about 2 stitches.

· **For Girl version:** to make the eyelashes, with black thread make 2 little stitches on the outer edge of each eye. Make the first stitch straight and the following a little leaning. The length of each stitch is about 1 stitch.

· To make the freckles, with orange thread make several random little stitches under each eye, next to the nose.

· Make 2 hairs with hair color yarn on Magic Ring of the head, following the instructions on page 3, in section "Hair Strand by Strand".

· Now you must make and sew the ears. To learn how to make them, please see the explanation below.

- 27 round:** * 1 sc in next 2 sc, sc2tog, 1 sc in next 3 sc * repeat 5 more times (36 sts).
- 28 round:** * 1 sc in next 4 sc, sc2tog * repeat 5 more times (30 sts).
- 29 round:** * 1 sc in next 3 sc, sc2tog * repeat 5 more times (24 sts). Fasten off and leave a long tail for sewing that piece later.

· To make the mouth, with black thread, do one diagonal stitch (1 st in length). Place the mouth on round 23. You can place a little to the right to make the expression more fun.

· Make the small cheeks with rouge.

· Stuff the head, fasten off and leave the head open.
