Stitches & info

BASIC STITCHES

If this is your first time making amigurumi, you might find it useful to have a tutorial at hand. With the stitches explained on the following pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably, without having to browse back to these pages.

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

STITCH TUTORIAL VIDEOS

With each stitch explanation we have included a URL and QR code that will take you to our online stitch tutorial video, showing the technique step by step to help you master it even more quickly. Simply follow the link or scan the QR code with your smartphone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

SINGLE CROCHET (*abbreviation: sc*)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next stitch to continue (5).

**SLIP STITCH** (*abbreviation: slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

**HALF DOUBLE CROCHET** (*abbreviation: hdc*)

When starting a new row of half double crochet, work two chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (4).

**DOUBLE CROCHET** (*abbreviation: dc*)

When starting a new row of double crochet, work three chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have two loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (5).

TRIPLE CROCHET (*abbreviation: tr*)

When starting a new row of triple crochet, work four chain stitches to gain height. Bring your yarn over the hook twice before you insert it in the next stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4, 5). You have now completed one triple crochet stitch. Start the next triple crochet in the next stitch.

**INCREASE** (*abbreviation: inc*)

To increase you make two single crochet stitches in the next stitch.

for the video tutorial

**INVISIBLE DECREASE** (*abbreviation: dec*)

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method which will make your decrease stitch look much like the other stitches in the row, resulting in a smoother and more even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

HALF DOUBLE CROCHET DECREASE

(*abbreviation: hdc dec or hdc3tog for more than 2 st*)

Bring your yarn over the hook from back to front before placing the hook in the next stitch (1). Wrap the yarn over your hook and pull it through the stitch. You now have three loops on your hook. Repeat this from the start in the next stitch (2). You now have five loops on your hook. Wrap the yarn over your hook once more and pull it through all five loops on your hook (3). You have now decreased two half double crochet stitches.

DOUBLE CROCHET DECREASE (*abbreviation: dc dec or dc3tog for more than 2 st*)

Bring your yarn over the hook from back to front before placing the hook in the next stitch (1). Wrap the yarn over your hook and pull it through the stitch. You now have three loops on your crochet hook. Wrap the yarn over your hook and draw it through the first two loops on your hook. You now have two loops on your hook. Repeat this from the start in the next stitch. You now have three loops on your hook. Wrap the yarn over your hook once more (2) and pull it through all three loops on your hook. You have now decreased two double crochet stitches.

FRONT LOOPS ONLY (*abbreviation: FLO*) AND BACK LOOPS ONLY (*abbreviation: BLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

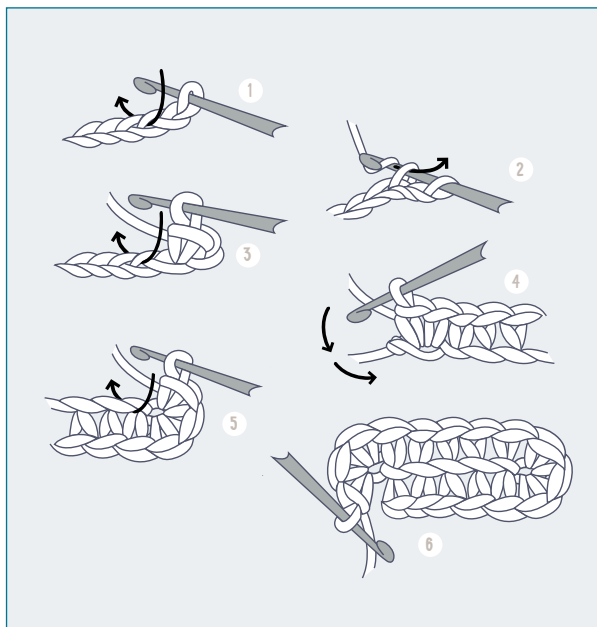

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again (7) and draw it through both loops on your hook. You have now completed your first single crochet stitch (8). Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the center of the ring tightly closed (9, 10). You can now begin your second round by crocheting into the first single crochet stitch of the magic ring. You can use a stitch marker to remember where you started.

If you don't prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook – where x is the number of sc stitches you would make in your magic ring.

CROCHET AROUND A FOUNDATION CHAIN

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain instead of crocheting into a magic ring. Crochet a foundation chain with as many chains as mentioned in the pattern. Skip first chain on the hook (1) and work a sc stitch in the next chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your crochet hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook (2). One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all loops on the hook (3). One 3-dc-bobble-stitch is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

**FASTENING OFF**

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

**FRENCH KNOT**

The French knot is a sewing stitch. Insert a threaded embroidery needle from the back to the front through the stitch where you want the knot to show. Keep the tip of the needle flat against your crochetwork and wrap the yarn around your needle twice (1). Carefully pull the needle through these loops so that you end up with a double knot. Insert the needle in the crochet stitch next to the knot (2) – not in the same stitch, as this will make the knot disappear – and fasten at the back.

JOINING ALL PARTS

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible, use the leftover yarn tail from where you fastened off, or use a new length of the same yarn color from one of the pieces that you want to join.

When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching them to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the pieces you want to join together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

SKILL LEVEL

easy (*), intermediate (**), advanced (***)
Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You

then repeat this round four times, crocheting the stitches in round 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS

YARN

For every pattern in this book we've listed the materials used to create that design, including the yarn type used by the designer. Don't feel tied to the choices of yarn weight though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls per color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table on the next page you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The

crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel.

Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker, I always mark the last stitch of a round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to over-stuff your amigurumi as the stuffing might stretch the fabric and show through.

FACIAL FEATURES

For some patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so be very careful that the post is where you want it to be, before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery, a tapestry needle with a rounded tip is used.

AMIGURUMI GALLERY

With each pattern, we have included an URL and QR code that will take you to that character's dedicated online gallery. Share your finished amigurumi, find inspiration in the color and yarn choices of your fellow crocheters and enjoy the fun of crocheting. Simply follow the link or scan the QR code with your mobile phone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

ASSEMBLY

- Sew the eyelids on, making sure you curve them around the eyes.
- Take your yarn needle and a long length of white yarn to shape the muzzle. Stitch into the center of the round just above the foundation chain and make a long stitch, exiting at the base. Stitch again in the same place, looping the yarn around the muzzle. Stitch through these two points repeatedly, pulling the stitches tightly. Fasten off.
- Sew the nose with the bottom triangular point resting in the middle of the muzzle. With brown yarn, embroider a long stitch where the muzzle is divided into two.
- Sew the ears to the head along round 17, in between two rows of the mane, with an interspace of 12 stitches. Sew along the front and around to the back of the ear.
- Sew the head to the neck of the body.

- Take your long doll needle and a long length of yellow yarn and stitch through the first leg at about 0.5”/1 cm from the top, through the body and into the second leg at about 0.5”/1 cm from the top, then stitch back through the second leg, the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body, until the legs are securely attached but still movable, and fasten off.
- Repeat this process for the arms, attaching them in the same way, below the neck.
- Sew the tail to the lower back.

ASSEMBLY

- Sew the arms between rounds 35 and 36 of the body, with an interspace of 4 stitches in the front. Keep the color changes at the back.
- Sew the bottom of each leg to a foot over rounds 8-14 (picture 3). Position the legs on either side of the body, 15 stitches apart at the front, and with the dark brown toes pointing to the front. The top of each leg should rest over round 16 of the body. Sew the curve of the leg to the body, making sure to only sew the inner part of the leg (pictures 4-5).
- Sew the tail to the back of the body over rounds 6-8.
- Using dark brown yarn, embroider the nose by making several horizontal stitches between rounds 2 and 3 of the head. The nose should be 3 stitches wide. Don't fasten off yet, but embroider a smile by making a horizontal stitch about 8 stitches wide below the nose (pictures 6-7).
- Sew the ears to the head between rounds 19 and 20, with an interspace of 12 stitches. Sew down the unworked sc stitches of the ears (picture 8).
- Use pins to mark a small upside-down teardrop shape

around each eye. Start with a small amount of brown felting wool, and with the felting needle, carefully poke the wool through the head around the eye, keeping the wool within the pins outline. Gradually add more wool as you go. Make sure not to poke or scratch the safety eyes. Angle the felting needle slightly to avoid hitting the safety eye washer (pictures 9-12).

- Gently squish the head so that the top of the head is slightly flattened (picture 13). Position rounds 13 to 21 of the head on the neck of the body. Turn the head so that the nose is aligned with the left arm. Sew the head to the leftover back loops of round 41 (picture 14).
- Use dark brown yarn to embroider horizontal lines across the back of the body (picture 15):
 - 3 lines between rounds 15 and 16, 3 stitches wide and 3 stitches apart,
 - 2 lines between rounds 13 and 14, 3 stitches wide and 3 stitches apart,
 - 3 lines between rounds 11 and 12, 3 stitches wide and 3 stitches apart,
 - 2 lines between rounds 9 and 10, 3 stitches wide and 3 stitches apart.

ASSEMBLY

- Sew the eyelids on, making sure you curve them around the eyes.
- Sew the horns to the head on rounds 18-19, with an interspace of 5 stitches.
- Sew the ears to the head on rounds 18-19, 3 stitches below the horns.
- Sew the body to the head along the open neck.
- Sew the mane to the head, along the center of the back.
- Take your long doll needle and a long length of yellow yarn and stitch through the first leg at about 0.5”/1 cm from the top, through round 8 of the body and into the second leg at about 0.5”/1 cm from the top, then stitch back through the second leg, the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body, until the legs are securely attached but still movable, and fasten off.
- Repeat this process for the arms, attaching them in the same way, along round 20 of the body.
- Take your yarn needle and a long length of brown yarn to shape the 4 hooves (on both arms and legs). Attach your yarn to the middle of the foundation chain, stitch into round 10 of the brown hoof and make a long stitch, exiting vertically in the middle of the foundation chain, looping the yarn around the hoof as you go. Pull this stitch tight. Stitch through these two points repeatedly, pulling each stitch tightly before making the next. Fasten off.
- Sew the chest patch to the body.
- Using the pictures as a guide, sew the spots to the front and back of the body.
- Sew the tail to the lower back.
