Open letter

Dear: Valued Customers and Valued Partners!

First of all, we - Ares environmental solution would like to send you and your family the best wishes and best regards.

We are proud of being a pioneering enterprise and a reputable brand in the Mekong Delta region for providing environmental protection solutions. After 15 years of establishment and development, our vision to 2020 is in the “Top 10” enterprises providing the best wastewater treatment solution in Vietnam. At present, we are actually reaching out to the Northern provinces with projects in Thanh Hoa, Hanoi, Hung Yen, Hai Duong, Hai Phong, Thai Nguyen, etc.

We are committed to the mission “Practicing and spreading the ethical and responsible lifestyle to the community”. With this mission, we dream that “Someday, all Vietnamese enterprises will take responsibility for serving and choosing true happiness as a goal for sustainable development”. We always put the community's interest above our own interest, and believe that Valued Customers and Valued Partners are our most trustworthy companions on a path to make this dream and mission come true.

After 15 years of experience, we have a large team of experts who are experienced in consultancy – design – construction – transfer of environmental protection technology in a variety of fields. And this team is always trained intensively and applied new technology – new materials – new equipment. We are ready to quickly respond the requirements of customers through flexible cooperation methods at a reasonable price and dedicated warranty.

We believe that “Everyone is capable of caring and protecting our beautiful planet by many ways as a practical heritage to give our children and grandchildren”. This belief has helped us to connect with our domestic and foreign large customers and partners, and multinational corporations. Right now, with the same belief, we also wish to have one more companion as yourself who is reading this letter.

We highly appreciate your choice because it has actively contributed to the life protection that the world and the country are calling for. We would like to send you the wishes of health, peace and prosperity.

Best regards.

THE BOARD OF MANAGEMENT OF GREEN ENVIRONMENTAL SOLUTION JSC

About Us

Ares Environmental Solution JSC (abbreviated as GE), formerly known as Green Environment Co., Ltd, was established in October 2003. GE Company was born and developed in the context that export pangasius processing industry has reached its peak in the watershed area of Hau River and Tien River in An Giang, Dong Thap, Can Tho and then spreading to neighboring provinces. In that period, there were many frozen seafood plants throughout the Mekong Delta region, at the same time, they also needed a reputable company to provide wastewater treatment and environmental protection solutions. And GE Company met the necessary conditions of a qualified contractor. We signed contracts of wastewater treatment with big companies such as Atlantic Seafood Freezing Factory N.V, Can Tho (capacity of 3,000m³/day and night), Nam Viet – An Giang JSC (capacity of 2,600m³/day and night, NTSF Seafood JSC, Can Tho (capacity of 2,000m³/day and night), An Phu Seafood Corporation, Dong Thap (capacity of 1,500m³/day and night), Cuu Long Fish Corporation, An Giang (capacity of 800m³/day and night), etc.

Ares Company is a pioneering private organization in the Mekong Delta region in providing environmental protection solutions. Since its founding, Ares Company has been continuously growing and developing, always one of the leading companies which participates in the market of consulting, construction and technological transfer to environmental protection projects. At present, Ares Company opened the market to the Northern provinces such as Thanh Hoa, Hung Yen, Hai Duong, Hai Phong, Thai Nguyen, etc. and developed new technologies to optimize wastewater treatment plants in the fields of pulp production, grinding, livestock, industrial parks, residential areas, and hospitals.

In addition to its production and business activities, Ares Company is making a positive contribution to social works, as well as contributing to the promotion of the sustainable development of the business community such as continuously organizing seminars to spread the practice of ethical, responsible lifestyle and social service; sponsoring young people to start their career in the field of developing environmental protection products; charitable activities forwards poor children and studious students, etc. With these long-term, practical and meaningful activities, Ares Company is proud to be a community enterprise.

Ares Company has been continuously providing and will provide high quality works and the best after sales service in order to bring the highest satisfaction to customers and partners, as well as actively contribute to the environmental protection of the country that the whole society is calling for. With 15 years of experience, we are confident in our business management skills as well as the best technical ability to bring the highest satisfaction to customers.

With our kindness, devoted service and always take responsibility for ourselves, we are looking for and wishing to connect with more and more customers and partners on the path of creating a safe environment for the community.

Please join us to make the life more beautiful.

PROCLAMATIO

We declare to be an enterprise for the benefit of the community, connecting individuals, businesses, and organizations which are volunteer and have the same enthusiasm to protect the life. We declare to be one of the leading companies in providing the best wastewater treatment solutions in Vietnam.

We are the people who have ethical behavior, ready to take responsibilities for ourselves and live to serve the society. We desire to dedicate to the sustainable development of Vietnamese enterprises.

We are committed to providing devotion, flexibility, companionship, as well as providing quality products with fast maintenance regime and high responsibility. We call on people to connect and take responsibility, jointly take care this

MISSION
