

The ZIRCON range was created to cover all possible environments from where great coffee is required to be served. Models offered start from the super space conscious I group featuring an integral grinder, going right through to a 3 group espresso powerhouse. Regardless of the model, you can be assured that all are built using the well-known and trusted Expobar technology, expertise and craftsmanship. In other words, you are guaranteed machines of the highest quality that makes the barista's work much easier.
