BY DARLA SIMS

108 CROCHET CLUSTER STITCHES

If you like crochet with plenty of unique texture, then the inspiration for your next project awaits in this collection of 108 beautiful cluster stitches by Darla Sims. Let these patterns capture your imagination as you use them to design your own afghans, place mats, pillows, shawls—whatever you can envision! Change yarn weight and hook size to get a wide range of results, such as using bedspread weight cotton to create dresser scarves or table runners. On page 74, you'll find easy instructions for planning an afghan using any of these pattern stitches. With so many lovely patterns, the possibilities are limitless!

MEET DARLA SIMS

“When I did my first collection of 63 crochet stitches,” says Darla Sims, “I thought I’d never do it again. Yet when it was completed, I discovered I’d developed a fascination with finding and creating new stitches. These days, it’s my main emphasis.”

The Washington state native lives outside of Seattle and enjoys spending time with her grown children, grandkids, and great-grandchildren. In fact, her personal crochet projects are often gifts for the younger family members.

When Darla isn’t visiting with loved ones, designing new pattern stitches, or

crocheting for family, she’s a regular contributor to a crochet magazine. “I write articles about the technical side of crochet,” she explains.

“In the past,” Darla says. “I did some work with knitting, but these days I design crochet exclusively. For some of my crochet pattern stitches, I’m able to get a look similar to knitting. It’s a matter of thinking differently about where to place the hook while crocheting. You can create the seemingly impossible when you keep looking at things in different ways.”

PLANNING AN AFGHAN

When planning an afghan, decide what size afghan you'd like to make, then select your favorite yarn and pattern stitch and make a swatch. Measure the width of one repeat in the swatch to determine the number of pattern repeats necessary to make your afghan the desired size.

For example, if you want to use pattern stitch #6 Nuance, on page 5, to make an afghan that is 45" (114.5 cm) wide and your pattern repeat measures 3" (7.5 cm), you'll divide 45 by 3 to determine the number of pattern repeats you need for the desired width (45 divided by 3 = 15 pattern repeats). It takes 10 chains to work one repeat so you'll need 150 chains to work 15 pattern repeats (10 x 15 = 150). Then add any additional chains that are necessary to work the first row of the pattern (150 + 1 = 151 chains).

MULTIPLES

Multiples are the number of stitches required to work a pattern. A very simple pattern could be worked by making a chain using just the numbers given at the beginning of the instructions. However, most patterns need twice the number of stitches given in order for all the rows to work.

For example, #104 Lisbon Lace, on page 71, lists a multiple of 8 stitches plus 6 chains. If you chained 14, you will only be able to work the instructions for the stitches before and after a star (★) repeat. But, if you chained 22 ($8 \times 2 = 16 + 6$ chs), you will be able to work across an entire row.

JOINING WITH SC

When instructed to join with a sc, begin with a slip knot on the hook. Insert the hook in the stitch or space indicated, YO and pull up a loop, YO and draw through both loops on hook.

POST STITCH

Work around the post of the stitch indicated, inserting the hook in the direction of the arrow (*Fig. 1*).

Fig. 1

WORKING IN FRONT OF, AROUND, OR BEHIND A STITCH

Work in stitch or space indicated, inserting the hook in the direction of the arrow (*Fig. 2*).

Fig. 2

WORKING IN A SPACE BEFORE A STITCH

When instructed to work a space before a stitch or in spaces between stitches, insert hook in space indicated by arrow (*Fig. 3*).
