

<b>Name of Project</b>	Nghi Son 2 BOT Thermal Power Plant Project
<b>Completion Date of This Form</b>	2021/01/20
<b>Monitoring Period</b>	(From) 2020/07/01 (To) 2020/12/31
<b>Progress of Project</b>	Construction Phase

<b>Progress of Project</b>	<b>Category required by JBIC</b>
<b>Construction Phase</b>	EIA and Environmental Permits / Air Quality (Ambient Air Quality)/ CDP/SEP / Consultation
<b>Operational Phase</b>	EIA and Environmental Permits / Air Quality (Emission Gas, Ambient Air Quality) / Water Quality (Effluent) / Noise / CDP/SEP / Consultation

**Notes** (e.g. grievance from local people and NGO)

--

## **EIA and Environmental Permits**

<b>Monitoring Item</b>	<b>Monitoring Results during Report Period</b>
Permit for exploiting and using surface water from Ministry of Natural Resources and Environment (MoNRE) or Thanh Hoa Province People's Committee	<p>Permit issued?: NO</p> <p>If "Yes", please provide the information of the issuance date (DD/MM/YYYY) and the issuing authority. In case of issuance with the conditions, please list the conditions and report compliance status hereafter. Please also submit a copy of the final permit together with this monitoring form.</p> <p>If "No", please provide the expected issuance date of the permit: 07/2021.</p>
Permit for discharging waste water into water area from MoNRE or Thanh Hoa Province People's Committee	<p>Permit issued?: NO</p> <p>If "Yes", please provide the information of the issuance date (DD/MM/YYYY) and the issuing authority. In case of issuance with the conditions, please list the conditions and report compliance status hereafter. Please also submit a copy of the final permit together with this monitoring form.</p> <p>If "No", please provide the expected issuance date of the permit: 11/2021.</p>
Registration of Hazardous waste at Thanh Hoa Department of Natural Resources and Environment (DoNRE) ( <u>Construction Phase</u> )	<p>Registration completed? (<u>Construction Phase</u>): YES</p> <p>Yes (registration date: 27/08/2018)</p>
Disclosure of Construction Environmental and Social Management Program ( <u>Construction ESMP</u> )	<p>Has <u>Construction ESMP</u> in Vietnamese been disclosed to the stakeholders by posting at the accessible points such as People's Committee office of affected communes prior to commencing construction activities?</p> <p>If yes, please provide us following information.</p> <ul style="list-style-type: none"> <li>• Disclosure material: full report</li> </ul>

Monitoring Item	Monitoring Results during Report Period
	<ul style="list-style-type: none"> <li>Method(s) and location(s) of disclosure: Office of People's Committee of Hai Ha and Hai Thuong communes, and through NS2PC website</li> <li>Starting and ending dates of disclosure: 27 July 2018 and no ending date of the disclosure</li> </ul>
Permit for Dredging Activity from MoNRE or Thanh Hoa Province People's Committee	Permit issued?: YES  Letter 1207/QD-BTNMT issued by MoNRE on 16 May 2019
Permit for Dredging Material Submergence at Sea from MoNRE or Thanh Hoa Province People's Committee	Permit issued?: YES  Letter 1206/QD-BNTM issued by MoNRE on 16 May 2019
Approval of Combustion Ash and (FGD) Gypsum Recycle/ Reuse Plan from Ministry of Industry and Trade (MoIT)	Approval issued? NO  If "Yes", please provide the information of the issuance date (DD/MM/YYYY). In case of issuance with the conditions, please list the conditions and report compliance status hereafter. Please also submit a copy of the final approval together with this monitoring form.  If "No", please provide the expected issuance date of the permit: 12/2021.
Permit for Industrial Air Emission from MoNRE	Permit issued?: NO

Monitoring Item	Monitoring Results during Report Period
	<p>If "Yes", please provide the information of the issuance date (DD/MM/YYYY). In case of issuance with the conditions, please list the conditions and report compliance status hereafter. Please also submit a copy of the final permit together with this monitoring form.</p> <p>If "No", please provide the expected issuance date of the permit: 12/2021.</p>
Permit for Operation of power plant from Electricity Regulatory Authority under MoIT	<p>Permit issued?: NO</p> <p>If "Yes", please provide the information of the issuance/confirmation date (DD/MM/YYYY). In case of issuance with the conditions, please list the conditions and report compliance status hereafter. Please also submit a copy of the final permit together with this monitoring form.</p> <p>If "No", please provide the expected issuance/confirmation date: 01/2022</p>
Disclosure of Operational Environmental and Social Management Program ( <u>Operational ESMP</u> )	<p>Has <u>Operational ESMP</u> in Vietnamese been disclosed to the stakeholders by posting at the accessible points such as People's Committee office of affected communes prior to commencing operational activities?</p> <p>If yes, please provide us following information.</p> <ul style="list-style-type: none"> <li>• Disclosure material: Full report</li> <li>• Method(s) and location(s) of disclosure: Office of People's Committee of Hai Ha and Hai Thuong communes, and through NS2PC website</li> <li>• Starting and ending dates of disclosure: 27 July 2018 and no ending date of the disclosure</li> </ul>
Registration of Hazardous waste at Thanh Hoa DoNRE ( <u>Operational Phase</u> )	<p>Registration completed? (<u>Operational Phase</u>): NO</p> <p>Yes (registration date: DD/MM/YYYY) /No (expected registration date: 07/2022)</p>

Monitoring Item	Monitoring Results during Report Period	
Conditions attached to EIA approved by MoNRE (10 conditions)	<b>Conditions</b>	<b>Status</b>
	1. Design, construction and operation of flue gas collection and treatment system to make sure that all boiler emitted gas has been treated in compliance with QCVN 22:2009/BTNMT (Kp=0.85; Kv=1.0) before emission to surrounding environment.	Designed and under construction
	2. Design, construction and operation of industrial waste water collection and treatment system during the construction and operation stage of the Project must comply with QCVN 40:2011/BTNMT and treated domestic waste water quality must meet with QCVN 14:2008/BTNMT before discharging to Yen Hoa river;	Designed and under construction
	3. Collection, transportation and treatment of all domestic solid wastes, normal solid wastes and hazardous waste which are generated from project construction in accordance with regulations in Decree no. 59/2007/NĐ-CP dated 09 April 2007 by Government regarding solid waste management and Circular no. 12/2011/TT-BTNMT regarding hazardous waste management dated 14 April 2011 by Ministry of Natural Resources and Environment;	EPC Contractor has contracted with licensed waste treatment company to collect all types of waste generating from construction activity.
	4. Design, construction and operation of cooling intake channel and discharge channel in order to make sure there is no bad effect to aquatic system, Yen Hoa river water quality, and coastal water;	Designed and under construction
	5. Design, installation and operation of coal conveyor system, oil and other material, fuel system for plant as per technical and construction standards and not pollute surrounding environment;	Designed and under construction
	6. Installation of auto-monitoring system to control the emission volume, dust, SO <sub>2</sub> , NO <sub>3</sub> volume of flue gas at stack; pH, temperature, residual chlorine of cooling water at water outlet;	To be complied at later stage

	7. Implementation of environmental monitoring, environmental protection and other protection methods as mentioned in the approved EIA report; record the monitoring statistics so that environmental authorities can audit when needed.	The quarterly environmental monitoring has been done for 3 <sup>rd</sup> quarter and 4 <sup>th</sup> quarter of 2020.  Environmental protection activities have been closely following up.
	8. To cooperate with local authorities to confirm the disposal location of dredged mud and soil during the construction and operation stages of the Project and the disposal only can be carried out after getting approval of local authorities; to apply technical methods and appropriate management so that the disposal of mud, slag and soil will not create bad effects to ecosystem, local resident and other economic activities as well as meets all environmental hygiene requirements;	Dumping work has been completed smoothly without any conflict with local people and environmental incidence.
	9. To comply with all regulations on waterway, fire prevention and firefighting, emergency response, labor safety and other related technical requirements and procedures of the Project;	All procedures/plans have been developed in line with relevant regulations and in application.
	10. To comply with applicable regulations on water resource exploitation, usage, and water disposal to the water source during the construction of the Project.	To be complied at later stage.

Any Issues regarding Monitoring Item mentioned above	• No	• Measures : N/A

**CDP / SEP**

Monitoring Item	Monitoring Results during Report Period				
Community Development Plan (CDP)	Through the daily close communication and investigations with these key stakeholders (village people, village heads, related persons in public facilities in schools and clinics, local authorities (including people's committees and social organizations) from commune, district and province level), NS2PC understood their concerns and their expectations in detail to improve their living conditions more. Based on that, NS2PC implemented the following Community Development Programs meeting with the local communities' requirements.				
	No	Program	Date	Activities	Photo
	1.	Handover Ha Dong renovated cultural house to local authority	16 Jul. 2020	<p>On 16 July, NS2PC coordinated with Hai Ha authority and Ha Dong village management to organize handover ceremony of Ha Dong renovated cultural house to Ha Dong village management for daily use of community events, such as village meeting and volleyball sport activities.</p> <p>Prior to that, based on communication with local people and authorities, NS2PC identified that Ha Dong cultural house is old and the level of the yard ground is lower than that of the road, therefore it is easy to get flood during raining. In order to improve this issue, NS2PC decided to carry out of upgrading the cultural house (Filling mixed concrete of the yard to increase higher level to avoid flooding, painting the wall of the houses and the fence, installation of outdoor light system). The detail contribution content is the above 6<sup>th</sup> program</p>	 <p>NS2PC delivered the certificates of renovated construction completion of Ha Dong Cultural house to local authority</p>

					 <p>Sign board of Construction contributed by local community and NS2PC</p>  <p>Local people plays volleyballs in the new yard</p>
	2.	Delivery of 284 gifts to 284 war invalid people	27 Jul. 2020	<p>On the occasion of 73th year anniversary of war affected people on 27 July, NS2PC joined the local community events organized by each of Hai Ha Commune People's Committee and Hai Thuong Commune People's Committee.</p> <p>This event is one of the most historical and traditional public events in Vietnam to show respect to the war affected people.</p> <p>In each ceremony in Hai Ha Commune and Hai Thuog Commune, NS2PC delivered total 284 pieces of daily-</p>	

			use item (Hai Ha commune: 166; Hai Thuong commune: 118) to 284 war affected people including Viet Nam Hero Mother, war invalid soldier; dioxide infected people, martyr's households for supporting their stable livelihood.	<p>NS2PC delivered 118 gifts to 118 war invalid and martyr households in Hai Thuong ward</p>  <p>NS2PC delivered 166 gifts to 166 war invalid and martyr households in Hai Ha commune</p>
	3.	Donation of medical equipment for Hai Ha and Hai Thuong Health Care Station (HCS)	<p>10 Sep. 2020</p> <p>Based on the communications with doctors, local people and authorities, we identified these HCS faces the difficulty in doing primary health check-up and treatment for local people due to lack of basic necessary equipment although so many local people visit there. This shortage comes from the local authority's limited budget and also insufficient allocation to HCS. Therefore, NS2PC decided to donate medical equipment to Hai Ha and Hai Thuong HCS to contribute to improvement of primary health check up and treatment for the total around 20,000 local people in Hai Ha and Hai Thuong, particularly for children, elderly and pregnancy women, as well as supporting to Covid -19 controlling.</p> <ul style="list-style-type: none"> <li>- Hai Ha HCS: one Oxygen generation, one Fetal Doppler, 16 L electric sprayer, one steamed sterilization autoclave.</li> <li>- For Hai Thuong HCS: One oxygen generator, one Fetal Doppler, one minor surgery table, one steamed sterilization autoclave.</li> </ul> <p>Nghi Son town Television (NSTV) broadcasted this</p>	 <p>NS2PC gave donation certificates to Health care station</p>

			news at <a href="https://www.youtube.com/watch?v=mCMImaagrNk&amp;t=42s">https://www.youtube.com/watch?v=mCMImaagrNk&amp;t=42s</a>	
				The doctor using oxygen operator to support the
4.	Making organic compost from waste of kitchen and gardening	11, 12, 13, 24, and 27 Sep. 2020	<p>Based on communication with local people, NS2PC understood that garbage treatment is a big issue, due to people have not developed a habit of separating organic and non-organic wastes and lacking a completely integrated system for collection and final treatment. Particularly, local people do not classify their daily garbage before disposal, they just simply put all kinds of wastes into the trash bin or in the road. That places, therefore, a burden on the local community and environmental company in garbage handling.</p> <p>Since most of the daily garbage is organic, it would be a valuable resource for fertilizing crops when being properly treated and composted.</p> <p>NS2PC hired experts from Hong Duc University, Thanh Hoa city to train 45 villagers (<i>Tinh Hai: 21 participants, Hai Thuong: 14 participants, Hai Ha: 10 participants</i>) in making organic compost from daily waste of kitchen and gardening. To contribute to: i) minimize the amount of daily household waste disposing into the environment, contributing to a better living environment; ii) reduce the cost of organic fertilizers and chemical fertilizers; iii) help people build up a habit of waste classification at home.</p>

5.	Scholarship award to students in Hai Ha and Hai Thuong	19, 26 Sep. 2020	<p>Based on communication with teachers, local people, Study Promotion Association CSR Team understood that many students in poor households face difficulty in studying. NS2PC worked with Study Promotion Association and CPC of Hai Ha &amp; Hai Thuong to identify the list of the most difficulty students and children with excellent results of study. Then, CPCs and NS2PC noticed publicly on loudspeakers and Community Notice Boards for local people to follow up and monitor the process of selecting the potential candidate list for getting NS2PC's Scholarship awards.</p> <p>NS2PC organized the ceremony to award 50 scholarships to 50 Hai Ha students (on 19 September) and 50 Hai Thuong students (on 26 September) who achieved overcome difficulties; excellent result of study in secondary school, high school. The parents of benefited students joined the scholarship award ceremony.</p> <p>Nghi Son town Television (NSTV) joined this ceremony and broadcasted this news at <a href="https://www.youtube.com/watch?v=83DiPv8TmsU">https://www.youtube.com/watch?v=83DiPv8TmsU</a></p>	

					 <p>Offered scholarship to 50 students in Hai Thuong</p>
	6.	Delivery of gifts to difficult elderly	01 Oct. 2020	<p>On the Occasion of International Day for Elderly people (<i>1<sup>st</sup> October</i>), and Action Month for Elderly People. Hai Ha Elderly Association called for individuals and enterprises to support and care for elderly people.</p> <p>As the best neighbored, NS2PC joined this ceremony and delivered 50 gifts to 50 difficult elderly in Hai Ha commune. This was a good chance for NS2PC people to talk with local elderly people and get their feedback of CSR performance and construction work.</p>	 <p>Delivered gifts to 50 difficult elderly people in Hai Ha</p>

	7.	Joining and delivering gifts to children on Mid – Autumn Festivals	01 Oct. 2020	<p>On 1<sup>st</sup> October, on the occasion of Traditional Mid - Autumn Festival (15<sup>th</sup> Lunar August). --	--	--	---

NS2PC donated scholarship to children

NS2PC donated 14,000\$ to Flood victim

Talking about NS2PC CSR program for the community, Mr. Park Hee Young, Deputy Director of NS2PC said “CSR is a long term development program to support local community to improve social – economic development and environmental protection. Seeing the serious damages of typhoon and flood in central province. NS2PC implement its social responsibility by donating 300 million VND to motivate spirits and materials for affected people to overcome difficulties”.

Mr. Tran Thanh Tuan, the chairman of Hai Ha commune Fatherland Front highly appreciate outstanding supports of NS2PC to local community, he emphasized:

Joined in hand to make Hai Ha cleaner

“The Vietnamese highly appreciate the spirits of sharing, “one piece of food while hungry is better than a big basket of food while full”. Therefore, active supports of NS2PC to the local community while no income source, demonstrate its social responsibility, hand in hand with local community to build the image of “Reliable Partners, Responsible Neighbors”.

#### ❖ 2020 CSR Review – Video clip

Made 2020 CSR Review video clip with subtitle in Vietnam and English to post on NS2PC’s FB and Youtube for local people, local authority, key stakeholders to understand CSR’s contributions for the Social – Economic Development and Environmental Improvement in local community. More detail as can be seen from the link below: <https://www.youtube.com/watch?v=0cWys-4RTio&t=6s>

21.

Job creation for local people

Continuously

To carry out the commitment with local community regarding priority given to recruitment of local community, up to now, our EPC contractor and their subcontractor has recruited a lot of workers, staffs, engineers from the local community including Hai Ha commune, Hai Thuong Commune, Nghi Son commune, Tinh Hai commune and other communities

Stakeholder Engagement Plan (SEP)

The relationship and communication with the local people and the local authorities (Province, District, Commune level and NSEZ) have been built strongly through the close communication and the trust for a long period including the Development Phase for the Project.

	<p>NS2PC assigned Community Relationship Officer as the contact person to local communities and has daily communications through him to explain about our project and hear their voices. This activity has made the relationship quite friendly and easy access for the local communities to NS2PC. In addition to Community Relationship Officer, NS2PC management also continues communicating with the local communities for giving the updated Project status timely and NS2PC's strong commitment to live together with them.</p> <p>Through those activities, NS2PC has implemented the construction works successfully in good harmonization with the local communities. NS2PC's organization is well established for easy access to receive any opinions from the local communities, which gives comfort to the local communities.</p> <p>The local authorities are fully supportive to our construction works. They understand well the importance of our project for activating the local communities and achieving the stable electricity supply to Vietnam for the further development and NS2PC's enough capability to implement the project in compliance with the regulations.</p>
