AURORA COLLECTION

Elegance of Natural Marble

Just like the popular bianco marble, the Aurora collection offers soft-modern style creating a natural and warm space based on white and grey.

Reasonable Price

The design does not only highlight the Aurora collection. It is also available at more reasonable prices allowing you to create your own space while still presenting its unique marble design with natural colors and patterns.

Natural Seam

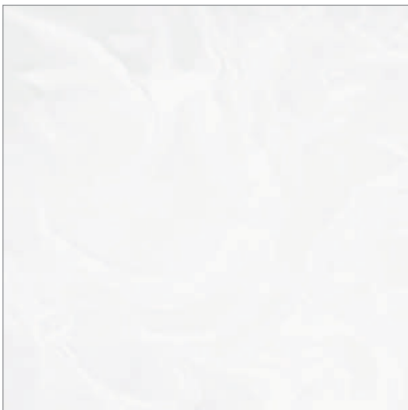

The beautiful and soft design allows for the product to maintain your satisfaction with less pattern breaks and color differences at the apron edge, cove backsplash, and seam at the top surface even years after it has been installed.

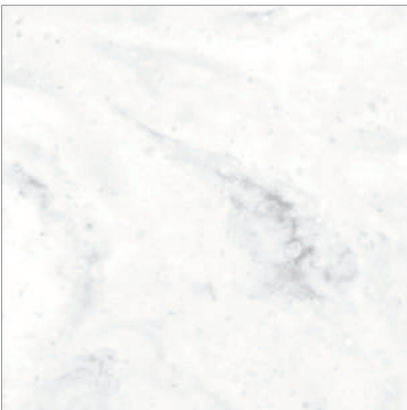

The 'Aurora Collection' is a new group of HI-MACS® realizing the soft and mysterious beauty of natural marble pattern inspired by the aurora seen in the polar regions.

“

The Bianco marble pattern provides a luxurious-looking kitchen interior giving it a soft-modern feel. Matches well with kitchen furniture in white, grey and pastel tones.

”

Aurora Bianco

M606

Aurora Pavia

M603

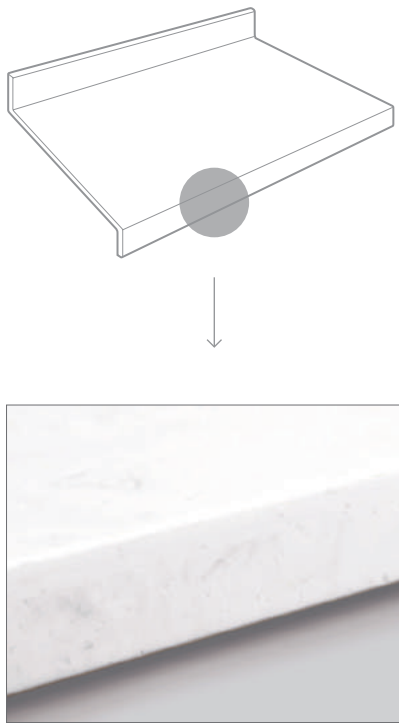

Creates unique marble patterns and feel suitable to a classy interior look. The delicately clean finish is recommended for commercial as well as residential application.

Perfect with vintage kitchen cabinets for that retro interior look. The pearl finish fits customers who feel burdened by white-colored kitchen countertops to avoid contamination.

Aurora Grey

M608

Using white marble on a black base like black marquina creates the opulent mood of natural marble. The black color coupled with sparkling gold pearl finish on the angles creates a lustrous but constrained feel. The rich marble pattern creates classic interior and provides a magnificent and luxurious feel.
