**TECHNO
MARBLE**

CLASSIC AND CONTEMPORARY

*A design with the seal of elegance that only the
real classics possess. Everlasting and eternal.*

FOR CENTURIES, MARBLE HAS BEEN
AN INSPIRATION TO ARCHITECTS AND
SCULPTORS.

It is a very noble material that fascinates with its elegance and all that it means. We have created a series of collections of ceramic marble that capture the historical essence of marble, but adapting it to contemporary aesthetic trends.

A woman in a light blue tank top and leggings is performing a yoga pose, standing on a single flexible tile. She is holding her right foot with her right hand, and her left leg is raised and bent. The tile she is standing on is a square with a natural, cracked, and textured surface, resembling stone or marble. The background is a simple, light-colored wall with a large, bright rectangular opening.

FLEXIBLE TILES

Gone are the days when tiles were made of superficial and hard materials. We bring to you an array of flexible tiles that are made of soft clay materials, giving it the most earthy and natural texture and aura. It is not only lightweight but also anti-bending and crack-free, keeping your floors flawless for the longest time. This unique, quintessential, and unconventional range of tiles are made of raw materials that ensure quality and perfection. The range includes travertine slate, marble, granite, and much more. Our flexible body tiles are ideal for interior and exterior, enabling you to revamp your style, inside out!

MARBLE

*Marble has become
a trendy material.*

ECO-

Nevertheless, its extraction implies an important impact on the environment. Thanks to the most advanced technologies in ceramic manufacturing, at Seron, we have obtained a series of collections that reproduce to the finest detail of the aesthetic and tactile characteristics of this material, with an environment-friendly result. Thus, we can propose the experience of scarce marbles whose extraction is highly limited.

FASCINATION

WE APPLY THE LATEST TECHNOLOGIES IN CERAMIC
MANUFACTURING PROCESS IN ORDER TO
OBTAIN DURABLE COLLECTIONS

which are capable to capture
the timeless beauty of marble.
At the same time, we put in an
advanced material that adapts
every millimeter to the new
necessities of interior design
and architecture
