ADES X-LINE
Series**

**Model
ADES-UFX-202-00**

GENERAL INFORMATION

ADES X-line is the dead-end ultrafiltration product line and process where the individual XF75 membrane modules is positioned vertically in a newly developed system called X-line.

X-line is unique in the market for its serviceability, scalability and flexibility. With the X-line concept one can construct a plant with minimum design efforts and constraints.
