LIFT RELAX Armchair 4 Motors

YOGA FLEXX SYSTEM

spazi@relax

YOGA FLEXX (NEW)

The exclusive YOGA FLEXX mechanism has been especially designed for our new chairs. This new mechanism relieves the loads on the vertebrae bringing considerable benefit to the entire spine.

Thanks to a dedicated button on the remote control, the Yoga Flex lumbar massage gives you the opportunity to benefit from a massage of variable duration: 5, 10 or 15 minutes which will allow a lengthening of the spine up to 2 cm.

MOTORIZED HEADREST (new)

The motorized headrest can be personally set up through the dedicated buttons on the remote control. This option will provide the cervical's natural support.

CARDIO RELAX (exclusive Relaxation Space)

A dedicated button put on the remote control easily sets the **CARDIO RELAX** position. This new mechanism achieves the ideal relaxation for the relief of the cardiovascular system. The immediately perceived effect is a well-being physical for all cases of fatigue and stress.

MOTORIZATIONS

The armchair is available with the configuration made by 4 motors and system independent **YOGA FLEXX** only.

2-MOTOR LIFT/RELAX

Capable of providing a backrest independent movement of the footrest. Relax and Lift benefits can be achieved by using the 2-motor mechanism of Spazio Relax chairs.

1-MOTOR ADJUSTABLE HEADREST

The motorized headrest can be adjusted at your best convenience through the dedicated buttons on the remote control.

1 MOTOR LUMBAR MASSAGE

This mechanism allows to reach the best comfort and relax for the lumbar area just activating the massage functions through the buttons on the remote control.

YOGA FLEXX

The exclusive YOGA FLEXX system relieves the loads on the vertebrae bringing considerable benefit to the body posture and especially to the entire spine through the stretching carried out to a lumbar massage.

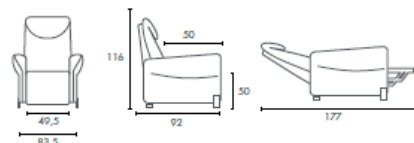

Thanks to a dedicated button, this system can be set up with three different durations: 5, 10 or 15 minutes massage which will allow a lengthening of the spine up to 2 cm.

How to use

- o remote control with display
- o 4 preset positions with different dedicated buttons
 - TV position - ideal for watching TV or reading
 - Work Position - can be used as a lectern or to work comfortably with the pc
 - Zero Gravity - can be activated to achieve the bed position with maximum extension of the chair
