- Simple to use, with one-touch dial from the integrated calendar

- Simple installation and compact design for quick and easy deployment

- Flexible camera options let you pick the one that best matches the needs of each room

- Built-in interoperability unlocks access to popular cloud-based video services while delivering Polycom's unmatched group collaboration experience

REALPRESENCE GROUP 310

Optimized for smaller groups, the RealPresence Group 310 solution is ideal for small meeting rooms, huddle rooms, and personal workspaces. It features simple setup and configuration, and a compact, sleek design that is easily hidden out of sight, keeping your rooms clutter-free.

RealPresence Group Series is the only standards-based group video conferencing system that is certified with Skype for Business and Office 365, making it easy to connect without changing the way you work. And because RealPresence Group is also standards-based, it's easy to connect with customers, partners, and others outside your organization.

Smaller meeting rooms need a solution that is right-sized for the space. However, small size and price does not have to mean a sacrifice in performance. RealPresence Group 310 supports 1080p60 video resolution, adding a new level of clarity and realism to your business communications. Content can be sent and received in up to 1080p60 quality, and it's easy to share using the HDMI or VGA connections or wirelessly from your laptop or mobile device. For advanced content collaboration, connect to Pano with up to 4 users at the same time plus annotation and whiteboarding when using a touch display.

RealPresence Group 310 is designed for smaller rooms with a single display. However, a second display output can be activated via an optional license key, providing the flexibility to add another monitor if needed. RealPresence Group 310 supports the same accessories and camera innovations as the rest of the RealPresence Group Series product line, such as EagleEye Producer, EagleEye Director II, and RealPresence Touch. This allows you to offer similar experiences in your smaller rooms as you do in larger spaces for consistency and improved ease of use throughout your organization.

For more details on the benefits of the RealPresence Group 310, please see the RealPresence Group Series family brochure.
